Analytical Computer Science Professional with proven experience in coding Mobile and Web-Based Technical Solutions. Adept at utilizing different programming languages and developing both frontend and backend aspects of projects. Competent in quickly adapting to new tools and technologies, engineering single-page web applications, and deploying websites. Strong background in assessing project requirements and designing new app features. Proven track record of successfully delivering projects and ensuring optimal quality of applications. Solid expertise in troubleshooting and solving technical problems together with cross-functional teams.

KEY SKILLS

System Architecture	Critical Thinking	Cloud Computing
Front-End Development	Responsive Web Design	Back-End Development
Web & Mobile App Development	Software Design & Architecture	Object-Oriented Programming
Verbal & Written Communication	JavaScript Libraries & Frameworks	Problem Analysis & Resolution

EDUCATION

Bachelor of Science in Informatics   *Faculty of Informatics and Computing, Singidunum University*

Belgrade, Serbia   2023

TRAINING AND CERTIFICATION

Angular – The Complete Guide, *Udemy*   2022

The Web Developer Bootcamp, *Udemy*   2022

TECHNICAL SKILLS

Java ● Git ● JavaScript ● HTML ● CSS ● Angular ● Node.js ● Bootstrap ● PHP ● Python ● SQL ● Android Studio ● Visual Studio Code ● Eclipse ● MySQL Workbench ● Navicat Premium ● Trello ● MS Teams

PROJECTS

FitUp (Fitness App)
- Engineered a comprehensive Android app through extensive Java programming, creation of SQL database, and implementation of different front-end features.
- Facilitated app utilization by designing the graphic user interface, organizing graphic components and layouts, and enabling effective use of fragments.

Portfolio Website
- Developed a fully functional one-page website through the utilization of different web development technologies, including HTML, CSS, and JavaScript.
- Enabled optimal access across a variety of devices by continuously assessing website components, introducing fluid grid concepts, and implementing responsive layouts.
- Simplified code maintenance operations through meticulous code writing, efficient code reuse, and regular commenting.

OTHER WORK EXPERIENCE

Ghostwriter / Content Writer, EpicCV, Belgrade, Serbia (Remote Position)   September 2020 – Present
- Produce over 3K professional resumes through analysis of applicant tracking systems, keyword identification, and meticulous writing.
- Maximize ATS-grading of hundreds of CVs by examining dozens of professional industries, analyzing thousands of job advertisements, and highlighting transferable skills of clients.
- Ensure satisfaction and retention of more than 2K clients through a comprehensive assembly of client information and delivery of post-service support.

Operator, Cinegrand MCF, Belgrade, Serbia   August 2018 – January 2022
- Verified optimal quality of motion picture material by administrating 6 high-value NEC projectors, conducting extensive tests, and reviewing video and audio parameters.
- Secured undisrupted flow of operations by conducting root cause analysis, troubleshooting, and swiftly eliminating potential technical issues.
